Beschreibung

Abstract:

Plant Part Used: Dried Fruit, 100% Natural

CAS No.: 94-62-2

Specification: Bioperine 95%, 98%.

Description:

Bioperine is a pure form of piperine which is derived from the fruits of black pepper. Piperine is an alkaloid. Black pepper is also known as *Piper nigrum* L and *Piper longum* L (long pepper). Bioperine is the only product sourced out of piperine to obtain a patented status for its ability to increase the bioavailability of nutritional compounds. Secondly, it is the only source from piperine to have undergone clinical studies in the U.S. to substantiate its safety and efficacy for nutritional use.

Bioperine supplement is effective for weight loss, because of its ability to energize and enhance thermogenesis. Thermogenesis is known as one of the main factors of weighting loss and is vital for absorbing nutrients and food. It is also an important facet to gastrointestinal absorption and digestion.

Functions:

1. Bioperine is often added to prepared food to enhance aroma and flavor;
2. It can Promote drug absorption, and improve the effectiveness of the drug function;
3. Bioperine increases nutrient absorption;
4. In clinical practice, it can induce calm (sedative effect) or to induce sleep (hypnotic effect), and used to make anticonvulsant, antidepressant, and muscle relaxation drug.
